

# Out of the Shadows

Words and Music by JD Martin, Joe Henry, and Doug Johnson

When I was small  
Tall people told me  
You should be seen  
And not heard  
But last night I dreamed  
The children were speaking  
And the whole world was listening  
To their words

You be the spark  
I'll be the candle  
We'll start a fire  
The darkness can't handle  
Fuel it with love  
Love makes it grow  
Together we'll come  
Out of the shadows

If one drop of rain  
Can turn into a river  
That cuts through a mountain  
To reach the sea  
Then why can't a word  
Spoken in kindness  
Cut through the blindness  
And set us free

You be the spark.....

Into the light  
With open eyes  
Don't you think it's time

You be the spark.....
