

# Count Me In

Words & Music by Jan Garrett & Glen Roethel

*Well, I know that you and I haven't always seen eye to eye  
But it's gone beyond a game of lose or win  
So, if we can come together and move on from where we've been  
Baby, you can count me in*

Gimme some rhythm and give me a groove  
Gimme a high tone feeling that makes me wanna move  
If we can find some soul, I just might lose these blues  
Baby you can Count me in

I been hanging around with my opinions too long  
Got to take a breather....so I can sing my song  
If I come on easy, I can end up strong  
Baby you can Count me in

You can count me in so we can both step right out  
Together we can improvise something worth shouting about

I will you give me an inch, so we can both take a mile  
We can invent a syncopation that will make us smile  
If we lighten up a little, we can travel in style  
Baby you can Count me in

You don't need to memorize the words to this song  
We can just make it up as we go along  
When we listen to each other, we can't do it wrong  
Baby, you can count me in

We will go sailing free, honey, the groove, the groove is on me  
The music just might be the breath of fresh air we need

When we follow the feeling that follows the dream  
We're bound to find some changes that will set us free  
Even when they take us into a minor key  
Baby, you can count me in

Well, we can take and give  
We can live and let live  
It's a surprising possibility that you just might bring out the best in me

When we expand our horizons beyond what we know  
We get a whole lot farther than we thought we could go  
There's something much wiser here that's running the show

We're looking at a win/win  
Let's do this thing  
Baby you can count me in
