

April Fool

Words & Music by Jan Garrett & JD Martin

Well, the long cold winter is over
But spring is too shy to show
And how we're gonna get to summer, Baby, I don't know
(It seems like) Nobody got the right answers
So I might as well be ditching school
I'll be your alibi If you be my April Fool

April Fool.....honey,
Try to keep it cool
Don't be cruel, Baby
Be my April Fool

Now, I know that you got a wild side,
And I've got a gypsy soul
Let's grab what's left of our senses And head out the door
(We can) Take a chance on the back roads, Baby
Maybe blow into someplace new
I'll be the breeze If you'll be my April Fool

April Fool.....honey,
Try to keep it cool
Don't be cruel, Baby
Be my April Fool

Well, the long cold winter is over
But spring is too shy to show
And how we're gonna get to summer, Baby, I don't know
It feels like we got the go-ahead
To go ahead and break the rules
I'll be your alibi
If you be my April Fool
